- **Backend Development: Node.js**, Express.js, Firebase Authentication
- **Database Management: MongoDB**

LANGUAGES

- Sinhala-Fluent
- English-intermediate

PROFILE

As a dedicated Higher National Diploma in Information Technology (HNDIT) student, I am committed to completing my academic journey, including the mandatory six-month industrial training. I am enthusiastic about leveraging the theoretical knowledge and practical skills I have acquired to contribute effectively in a development-focused environment. I am actively seeking a professional opportunity that fosters continuous learning, career advancement, and active participation in real-world IT solutions.

PROJECTS

- **Fashion Store E-commerce Website** - **View in GitHub**

  - A fully functional eCommerce platform built with the MERN stack (MongoDB, Express.js, React.js, Node.js), integrated with Tailwind CSS, Vite, and Firebase for a modern UI and smooth deployment.

  - Key Features:
    - Browse, filter, and sort products
    - Add to cart with variant selection (size/color)

- **Portfolio** - **View in GitHub**

  - Built with HTML, CSS, and JavaScript for a responsive and interactive frontend.
  - Modular and reusable layout components for maintainability. • Integrated contact form with Form Submit for email-based message delivery.
  - Fully responsive design, optimized for all screen sizes.
